Misto is safe, durable and built to last. Setup is very easy; hook a hose up to the Misto, plug it in and turn it on. To operate, you can pick from three different levels of mist and choose if you want the fan to oscillate. Within seconds of flicking the switch you have a cool mist coming out. The Misto is weather, UV and rust resistant so once you set it up, you can pretty much leave it out. Plus, the misting kit detaches without tools for easy cleaning. Misto is NOT a toy...use caution and always supervise children while using Misto.
